2018-2019 Secretary/Treasurer Candidate Philosophy

Re: BRETT DOUGHERTY, AIA

My philosophy is simple; I believe there should be transparency in leadership's activities in service to our members. The AIACC organization is further removed from any interaction with our members than their local chapters, and as such, should operate with an elevated diligence in pursuit of providing a high standard of advocacy and communication to ensure member's needs are being addressed. The combined Secretary and Treasurer roles play an important part in ensuring the time our leadership spends together is utilized in an efficient and effective manner. The role also requires the promotion of fiscal responsibility and forward-looking strategic planning; both of which I feel more than prepared to tackle stemming from the 7 years of leadership with my local AIA component, 2 years of participation in the AIACC board and my own leadership positions with my personal career. I do not take the requirements, expectations and perceptions of the Secretary/Treasurer role lightly and expect to be held to a high standard should I be honored with being elected into this position.
