CITIZEN ARCHITECT PROGRAM:
- Identify opportunities for the Citizen Architect to
- become involved in their community
- Acquire leadership positions
- Announce vacant opportunities,
- Network and Collaborate

DEVELOP NEW WEBSITE:
- To make a reader-friendly, member-driven database will content, events, opportunities and research li-
- braries, the AIA is embarking upon creating a new and improved website to address member needs.

STAKEHOLDER RELATIONSHIPS:
- The AIA has already embarked on the research and implementation to partner with key stakeholders to develop a more focused approach and to provide resources related to energy and water resiliency issues
- Tools to assist in the ZNE 2020 and 2030 Goals
- Partner with PG&E for a designated “Green Corner” for all things resilient-related

2018: The Cliff-Note Version

KIDS DRAW ARCHITECTURE:
- Implemented in 2017 based off AIA Santa Barbara’s Kids Draw Architecture Program, the 2018 will prove to be even more successful and involve many public members of the community.
- For one weekend in September (TBA), California AIA chapters can provide this program of inviting chil-
- dren and parents to an event hosted by the local chapter. Here, the public will have a chance to learn some sketching techniques, talk to architects in per-
- son, and take away some invaluable history lessons from the building or structure where the event is taking place.
- All supplies provided by the AIA.

REINVIGORATION OF THE DISASTER ASSISTANCE PROGRAM:
- Support chapter training SAP workshops
- Disaster assistance for Chapters to distribute in the way of a toolboxCreate website, www.ArchitectsHelp.org, for information or to donate to California Disas-
- ter relief.
